FEATURES

OEM design and fit-up

Large selection

Magnum heavy-duty option

Heavy-duty bearings

High temperature grease

100% virgin aluminum used in aluminum housings

Individually boxed

Low cost, high quality

Limited lifetime warranty

BENEFITS

- OREGON® spindles are made to meet or exceed OEM specifications

- More than 95 part numbers available—the best coverage in the industry

- Heavier casting, Magnum ball bearings, and pre-tapped mounting holes provide a rugged alternative to standard OE spindle assemblies

- Japanese quality bearing used in commercial and Magnum spindles means smooth, failure-free operation

- Long-lasting lubrication at high operating temperatures

- Strong defect-free housings

- Makes stocking and inventory control easy with part number, application and bar code labeling

- Superior quality at low cost makes repairing spindles “a thing of the past”

- Assurance of long service life
